WORK EXPERIENCE

Tata Consultancy Services **Dec. 2025 – Present**
Systems Engineer *Mumbai, India*

- Developing and maintaining an Enterprise Solutions Unit in SAP ABAP + JOULE AI running on an SAP HANA Cloud Database.
- Integrating generative and agentic AI trained on ABAP code to boost productivity and streamline the migration of ERP systems from the old ECC architecture on to modern cloud databases.

DRDO Young Scientist Laboratory (DYSL - AT) **Feb. 2025 – Dec. 2025**
Software Engineer (Scientist's Assistant) [Letter of Recommendation] *Hyderabad, India*

- Designed and Implemented a Closed Network Inference Engine utilizing a fine-tuned Llama 3.3, pytorch, CUDA and Docker(MLOPS) creating a generative AI platform for employees to access and work with company information in sensitive office environments.
- Contributed to overall efficiency of Scientists by deploying the engine over the network with a REST API through an NVIDIA GPU cluster which was accessible through a front-end developed with React.Js.

AMMACHI Labs **Oct. 2023 – Mar. 2024**
AI Research Intern *Kerala, India*

- Contributed to the research on the impact of diverse teaching methods on students' performance and analyzed various trends and distinguishing effective teaching practices through data.
- Leveraged Python (Librosa, MoviePy) and the Rokoko suite for multimedia datasets for educational behavioral analysis.

EDUCATION

Amrita Vishwa Vidyapeetham **Oct. 2021 – Aug. 2025**
Bachelor's in technology, Computer Science & Artificial Intelligence, 7.9 GPA *Kerala, India*

FIITJEE Junior College **2019 – 2021**
Class XII, Telangana State Board, 96.6 % *Hyderabad, India*

D.A.V. Public School **2019**
Class X, Central Board of Secondary Education, 95.8 % *Hyderabad, India*

SKILLS

Programming Languages: Python, C++, Java, SAP ABAP, HTML/CSS.
Computers: IoT, Raspberry Pi/Arduino UNO, Linux Operating Systems, Computer Networking, Docker.
Artificial Intelligence: Core Machine Learning (ML), Reinforcement Learning (RL), Deep Learning (DL), PyTorch, GPU Architecture, CUDA/cuDNN C++, Generative AI, LLMs, MLOPS.
Miscellaneous: Microsoft Office Suite, PowerPoint(PPT) Presentations, Public Speaking, People Skills, English.

CERTIFICATIONS

Oracle Cloud Infrastructure Generative AI Professional - Oracle **July 2024**
Aerial Robotics – University of Pennsylvania **June 2024**
Foundations of Deep Learning – NVIDIA **September 2023**
